**Subject:** Talking trash, sewage, and Plum Island

## **Webinar: Creating a Sewage-Free Long Island Sound - The Work Continues**

Thursday, December 17, 12:00 p.m.

Sewage pollution is damaging the vitality of the Sound and threatening the health of the region's people and wildlife. Our team is taking action, merging water monitoring with legal expertise to protect your local streams and rivers from pollution. Join Senior Legal Counsel Roger Reynolds and Staff Attorney Kat Fiedler as they discuss how they work with your watchdog on the water, Soundkeeper Bill Lucey, to track down and address sewage leaks in Long Island Sound. Hear how we're using all of our tools to make progress on our goal of a sewage-free Long Island Sound. [Click here to register.](#)

## **Webinar: PPE and Marine Debris - Results from a Statewide Cleanup During COVID-19**

Tuesday, December 22, 12:30 p.m.

Join Anthony Allen, assistant director of ecological restoration, for the first look at the results from this year's unprecedented cleanup effort across the State of Connecticut. Journey back in time to learn about the trends we've seen over the past four years, the stories the data might tell us, and the categories Save the Sound is watching most closely. [Click here to register.](#)

## **Webinar: Envision Plum Island**

Thursday, January 21, 12:00 p.m.

Join us on this webinar as we envision a brighter future for Plum Island. Save the Sound, The Nature Conservancy, and consulting firm Marstel-Day met with nearly 200 of you from all around the Long Island Sound region plus Albany, New York, and D.C. to develop our vision: Plum Island Preserve, for permanent conservation, historical preservation, limited public

access, and reuse of Plum Island's existing infrastructure to maintain skilled jobs compatible with conservation. [Click here to register.](#)

---

## Coming Soon

Keep an eye on our Stay Engaged website page for event announcements throughout December and January.

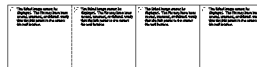

Upcoming events will include:

- An electric vehicle panel
- More from our exclusive member webinar series
- Climate in the 2021 Legislative Session
- A healthy lawn webinar series

---

***Save the Sound is the unified name for Connecticut Fund for the Environment/Save the Sound.***

***Our mission, programs, and expert team remain the same: committed to fighting climate change, conserving threatened lands, improving water quality in the Sound and its river, and working with nature to restore ecosystems.***
